

JESUS IS ALIVE # 2

VIDEO: DOES SCIENCE MEAN THE RESURRECTION IS IMPOSSIBLE?

<https://vimeo.com/44101059>

WHAT OTHERS SAY:

"Contrary to popular opinion, science is not our only means for accessing truth. In the case of Jesus' resurrection, we must consider the historical evidence, and the historical evidence for the resurrection is as good as for almost any event of ancient history. The extraordinary character of the event, and its significance, provide a unique context, and ancient history is necessarily hard to establish. But a bare presumption that science has shown the resurrection to be impossible is an intellectual cop-out. Science shows no such thing." *Ian Hutchinson, MIT Professor of Nuclear Science & Engineering*

THOUGHT TO PONDER:

"Let the resurrection joy lift us from loneliness, weakness and despair to strength, beauty and happiness."
Floyd W. Tompkins

PRAYER:

Almighty and eternal God,
God of electrons, black holes and supernovas.
God of DNA and single-cell organisms,
we praise you!
As we explore the world you have made,
through science and technology, we see your
hand and design all around us.
Thank you for giving us your son, Jesus Christ,
the origin of all things, the risen Lord,
who trampled down death by death,
and gave us the endless song,
Alleluia. Amen.

Professor John Lennox (Oxford Scientist and a Christian) writes a helpful article here:
